

Florida Consortium on Inclusive Higher Education

Inclusive Postsecondary Education Programs

Below is a list of Florida's ***inclusive postsecondary education (IPSE) programs*** serving students between the ages of 18 and 55, according to a recent survey (FCIHE, 2016). Programs listed here meet the definition of ***inclusive postsecondary education for students with intellectual disabilities***, as defined in the TPSID initiative of the Higher Education Opportunity Act (HEOA, 2008).

Please note: Programs continue to evolve, and new ones emerge. Refer to www.FCIHE.com or www.FCSUA.org for updated information. The HEOA represents a federal initiative which specifically defines **inclusive postsecondary education** as programs where students with intellectual disabilities **enroll in college courses with their degree-seeking peers** and experience internships and gainful employment. (FCIHE, 2016).

Florida's Inclusive Postsecondary Education Programs
